

Membership Ideas

2004-2005

- ☆ Have a Dance for the freshman or the junior high students and have your local FCCLA chapter sponsor it. Have some good music and snacks and this way you can get younger students involved in the organization.
- ☆ Have a Pizza Party where the members have to earn their own toppings by answering FCCLA questions correctly. Throughout the meeting give them the answer and then to see how well they pay attention then ask them the questions and see if they can give you the correct answers.
- ☆ At the beginning of the school year have a display and show the past projects and scrapbooks. Show pictures and have information available so that students can learn more about FCCLA and they can see what their local chapter is involved in.
- ☆ Get your local FCCLA chapter involved in your county fair. Have a booth that displays some of your past community services and your other projects. You can also show them your scrapbook and give them other information about FCCLA. Tell them about the other projects that are available for students to do.

- 
- ☆ Have the members get involved in a secret pal program. Each member adopts a member and they give tiny inexpensive gift to their secret pals every two months or so. This would be a fun way for the members to get to know each other.
 - ☆ Put up posters around the school to inform the students and faculty of what's going on in the organization. Make the posters fun and interesting as well as informative.
 - ☆ The officers or older members should go into the classrooms of the junior high and grade school and give them a presentation. Have them tell the students what they do and where they can go through FCCLA.
 - ☆ Make the meetings worth coming to by making them fun. Give the members treats for coming, such as candy or pop or a discount to their favorite store.
 - ☆ Split up Step One into booths. Have the members go to the booths and answer question. This is a fun way for the students to go through Step One.
